

August Home Doorbell Cam to Support New Apple HomeKit Camera Platform Announced at WWDC

August Doorbell Cam with HomeKit to Add Siri Voice Commands to Control the Camera

SAN FRANCISCO, June 13, 2016 — [August Home Inc.](#), the leading provider of smart locks and smart home access products and services that make life more simple and secure, today announced that its popular [August Doorbell Cam](#) will support Apple HomeKit via the new Home app in iOS 10. This was announced this morning at the Apple Worldwide Developer's Conference (WWDC) in San Francisco.

The August Doorbell Cam lets consumers see and speak with visitors at their door, from anywhere, using a smartphone. Similar to the [August Smart Lock](#), which already supports HomeKit, the Doorbell Cam with HomeKit will also support Siri™ voice commands. This gives customers another great way to interact with their home and their August Doorbell Cam such as turning on the Doorbell Cam camera to view live activity outside their door.

“We have been working closely with Apple on HomeKit from its early beginnings and we already have a very successful HomeKit product with our second generation August Smart Lock,” said Jason Johnson, CEO of August Home Inc. “We plan to support the new HomeKit capabilities with our Doorbell Cam once Apple releases support for its new video camera profile in iOS 10.”

In April, August began shipping the award-winning 2nd generation August Smart Lock, which supports HomeKit including the ability to use Siri to lock or unlock doors and check the status of doors using voice commands on an iPhone, iPad, iPod Touch, Apple Watch and AppleTV.

August Smart Home Access Solution

The August Doorbell Cam, August Smart Lock and August Smart Keypad create the complete Smart Home Access solution allowing people to manage their front door from anywhere. The August Doorbell Cam lets consumers see and speak with visitors at the door, from anywhere, using a smartphone. The August Smart Lock turns a smartphone into a smart key where consumers can lock and unlock their door, create virtual keys for guests, and keep track of who comes and goes with a 24/7 activity log. The August Smart Keypad also lets users create unique entry codes for family, friends and service providers to unlock an August Smart Lock without a traditional key or smartphone.

August Works With

August products work in harmony with leading smart home brands to make life more simple and secure. August Works With partners include Airbnb, Apple, Logitech, Nest and Xfinity Home. For more information visit [August Works With](#).

About August Home Inc

August builds smart home access products and services that are safer than traditional keys, make life easier, and put users in control of their front door from anywhere. With August Home products, users can create virtual keys to their home and easily grant access to house cleaners, dog walkers, delivery services, guests, friends, and family—and control how long that access lasts—all from a smartphone. August Home products work together, integrate with other smart devices and services, and are designed to fit naturally and elegantly into the home. August Home Inc is headquartered in San Francisco, California.
